Devashish Soni

Data Scientist | IIT Madras | Ex- Bosch | Machine learning and
Artificial intelligence enthusiast |
Chennai

Summary

Devashish Soni is a graduate from IIT Madras in Mechanical Engineering.

He went to Europe on a full scholarship to participate in International Summer School 2018 at University Of Luxembourg and visited over 6 countries including Switzerland, France, Germany to gain knowledge and learn their culture.

Devashish shows a keen interest in Management & Data Analytics, and also aims his career in the same field.

Experience

Bosch India

Summer Intern

May 2019 - July 2019 (3 months)

Bangalore

SlicePay

Marketing Intern

September 2018 - January 2019 (5 months)

Chennai, Tamil Nadu, India

University of Luxembourg

ULISS Alumnus

June 2018 - July 2018 (2 months)

Luxembourg

Deccan Industries

Internship

May 2018 - June 2018 (2 months)

Coimbatore Area, India

Working in Deccan Industries was a great experience.

-The profile was a Product Design, with project mainly involving-

>> Making an inverse design of pump impellers

- >> Increasing the efficiency of available pumps without major changes in design
- >> Creating a new pump model in SolidWorks
- >> ANSYS based analysis of fluid and pump models.

Mechanical Engineering Association, IIT Madras

FR Head

September 2017 - May 2018 (9 months)

Chennai, Tamil Nadu, India

-Mechanical Engineering Association (MEA) was formed with the primary aim of exposing Mechanical engineers to real-world challenges. With both faculties and students as its members, it is one of the most active engineering organization in India.

Being a part of the core team in such a big organization, helped me to develop my skills in fields like :

- > Team Management
- > Decision-making in the critical situations
- > Organizing events etc.

I have organized a fully sponsored 'Education-cum-Cultural Trip' to our country's technology-pinnacle Shar-ISRO (Satish Dhawan Centre for Space Research) as well as to the reputed Kochi Refinery (BPCL), for the benefit of my colleagues and other aspiring students.

Saarang

Coordinator

October 2016 - May 2017 (8 months)

IIT Madras

National Service Scheme

Project Manager

July 2016 - May 2017 (11 months)

Chennai, Tamil Nadu, India

Working in NSS as a Project Representative (Hindi Wikipedia Translation Project) was really a big learning opportunity of my life, as

- > I led a team of 7 members for translating the Wikipedia articles
- > We translated as many as 550 Wikipedia articles from English to Hindi and uploaded them back to the Wikipedia

> I also Got an Appreciation Certificate from our Dean(Studnet) for my contribution to the Indian Society

I personally believe, Our team members and I, gained really good knowledge about several fields by translating a huge number of Wikipedia articles.

Education

Indian Institute of Technology, Madras

Dual Degree (B.Tech + M.Tech), Mechanical Engineering · (2015 - 2020)

Ashtha academy Sr. Sec School

Senior Secondary, Mathematics
