Super Intern

Anshuman Pandey

CEO at NimbleBox.ai | We're hiring
San Francisco Bay Area

Summary

Anshuman has a Bachelor's in Computer Science from SRM University and was previously a Special Student at MIT where he interned at the prestigious MIT Media Lab.

He later worked as a Researcher at Carnegie Mellon University under the Turing award winner Dr. Raj Reddy.

He is a hackathon veteran and has won over \$10,000 in prize money all around the world.

He set up the first and only student-run research lab in India - Next Tech Lab where he has taught over a thousand students to work in the field AI/ML, AR/VR, IoT and Blockchain. His lab has advisors from MIT, Brown University, CMU, and Cambridge.

In his free time, you can find Anshuman reading, playing tennis, cycling, at the gym or swimming. He is also a certified Open Water Scuba Diver and loves exploring new depths of our oceans.

Anshuman is currently the Founder and CEO of NimbleBox.ai - A company which makes AI development easy for developers and has clients which are leading educational institutions, online learning websites, coding bootcamps and enterprises in the US and India.
