# Ashirwad Sangwan

Senior Analyst at Tiger Analytics | Data Science | Competitive  
Programming | AI | Machine Learning  
Chennai

## Summary

I am a Mathematics graduate with a keen interest in Machine Learning and Data Mining. I have a strong foundation in Machine Learning and my interest lies in game theory and its applications in artificial intelligence.

---

## Experience

### Tiger Analytics

1 year 2 months

#### Senior Analyst

July 2020 - Present (2 months)

#### Analyst

July 2019 - July 2020 (1 year 1 month)

Chennai Area, India

### Kaggle

#### Machine Learning Practitioner

October 2018 - Present (1 year 11 months)

Chennai Area, India

<https://www.kaggle.com/ashirwadsangwan>

### MyKarma

#### Data Scientist

March 2019 - June 2019 (4 months)

Chennai Area, India

- Worked on designing an easier questions framework to fetch more players in the game which we achieved success and active users tripled in the course of two months.
- Built a pipeline to automate data into dashboard form using d3.js and flask.
- Designed and implemented a retention cohort that takes up multiple factors into account to define the product growth metrics.

- Worked on designing the winning algorithm to reward users in fairway possible which in turn helped increase the popularity of the game and gain more audience.

---

## Education

Delhi University

Bachelor's degree, Mathematics (Hons) · (2013 - 2016)

fast.ai

Deep Learning, Practical Deep Learning for Coders · (2019 - 2019)

edX

Python for Data Science · (2018 - 2018)

Coursera

Machine Learning
