Ajeet Adeteea

Data Analyst | Decision Scientist | Ex-Bounce | Freelancer
Bengaluru

Summary

Having a 8 months of experience working in Analytics and data science. Currently, I work as a Data Analyst at Kushal Jewellery, building reports and dashboards that are helping people achieve more in their growth!

Previously, I worked at Bounce Startup as a Jr Decision Scientist, improving products and services for our customers by using advanced analytics, setting up Automation (i.e. Python, Airflow), creating and maintaining models, and onboarding new data sets.

Competencies: Python, Machine Learning, PowerBI, Tableau , SQL, Keras, machine learning, TensorFlow, Business Intelligence , Time Series ,Business Analysis , Prediction Analysis

---

Experience

Kushal's Fashion Jewellery
Data Analyst
July 2020 - Present (2 months)
Bengaluru, Karnataka, India

Inference Labs
Junior Decision Scientist
January 2020 - June 2020 (6 months)
Bengaluru, Karnataka

Worked directly for Bounce , Bangalore
The work is based on full stack Data Analytics which involves data analysis, data visualization, data extraction and taking strong business decisions based on the trends. Work is on client location permanently and the client is the world's fastest growing scooty rental company and is one of a kind start up in terms of its services.

Tools worked on : | Python | SQL | Tableau | Business Analysis | Prediction Analysis | Data Studio | Data Airflow | Automation | Google sheet |
